## CS23333-Object Oriented Programming Using Java-2023

Correct

Question 2

create an interface Playable with a method play() that takes no arguments and returns void. Create three classes Football, Volleyball, and Basketball that implement the Playable interface and override the play() method to play the respective sports.

Marked out of 5.00 ▼ Flag question

```
interface Playable (
void play();
}
class Football implements Playable (
String name;
public Football(String name)(
this.name=name;
}
public void play() {
System.out.println(name+" is Playing football");
}
Similarly, create Volleyball and Basketball classes.
Sample output:
Sadván is Playáng football
Sanjay is Playáng volleyball
```

## Sruthi is Playing basketball For example:

Test	Input	Result
1	Sadhvin Sanjay Sruthi	Sadhvin is Playing football Sanjay is Playing volleyball Sruthi is Playing basketball
2	Vijay Arun Balaji	Vijay is Playing football Arun is Playing volleyball Balaji is Playing basketball

Answer: (penalty regime: 0 %)

```
1 v import java.util.*;
2 v interface p{
    void pl();
               day from the string name; for the string name; for public f(string n) this.name=n;
                                                           public void pl(){
    System.out.println(name+" is Playing football");
             10
             11
             12
            14 v class v implements p{
15 String name;
                                                            String name;

public v(String n){
    this.name=n;
            16
17
            18
19
                                                              public void pl(){
            20
21
                                                                                     System.out.println(name+" is Playing volleyball");
            22
                                    class b implements p{
   String name;
   public b(String n){
      this.name=n;
}
            23
            24
            25
            26
27
            28
                                                              public void pl(){
                                                                                      System.out.println(name+" is Playing basketball");
            29
30
            31
32
                                    public class sample{
   public static void main(String[] args){
      Scanner scn = new Scanner(System.in);
      f fl=new f(scn.next());
      v v1=new v(scn.next());
      b b1=new b(scn.next());
      f arg();
      f arg()
          33
34
35
36
37
                                                                                   f1.pl();
v1.pl();
             38
            40
41
                                                                                      b1.pl();
                                                              }
            42
```

✓ 1 Sadhvin Sadhvin is Playing football Sanjay Sanjay is Playing volleyball Sruthi Sruthi is Playing basketball Sruthi is Playing basketball	~
✓ 2 Vijay Vijay is Playing football Vijay is Playing football Arun is Playing volleyball Balaji Balaji is Playing basketball Balaji is Playing basketball	~

## Question 3

Correct Marked out of 5.00

▼ Flag question

```
Create interfaces shown below. interface Sports {
```

public void setHomeTeam(String name); public void setVisitingTeam(String name);

interface Football extends Sports { public void homeTeamScored(int points);

product votal visiting realisecreacing points), a create a class College that implements the Football interface and provides the necessary functionality to the abstract methods.

Rajalakshmi

Saveetha

22 21

Output:

Rajalakshmi 22 scored

Saveetha 21 scored

Rajalakshmi is the Winner!

## For example:

Test	Input	Result
1	Rajalakshmi	Rajalakshmi 22 scored
	Saveetha	Saveetha 21 scored
	22	Rajalakshmi is the winner!
	21	

Answer: (penalty regime: 0 %)

Reset answer

```
1  import java.util.Scanner;
2  interface Sports {
   public void setHomeTeam(String name);
4  public void setVisitingTeam(String name);
      interface Football extends Sports {
public void homeTeamScored(int points);
public void visitingTeamScored(int points);
10
12 v class College implements Football {
